

THE NEW CHARTER.

Memorial of the Citizens' Association to the Senate Approving of the Reform Proposed by Mr. Frear's Bill.

The Non-Political Taxpayers of the City Approving of the Charter.

ARGUMENT OF THE SOLID MEN.

At a special meeting of the Citizens' Association held in its hall on Saturday the merits of the new city charter were fully considered and discussed, and the following memorial approving its adoption was unanimously agreed upon:

CITIZENS' ASSOCIATION OF NEW YORK,
111 Broadway, April 2, 1870.

TO THE HONORABLE THE SENATE OF THE STATE OF NEW YORK:

Yours—The Citizens' Association, which has been engaged for nine years in the effort to obtain a good municipal government and good local officers for the city of New York, respectfully addresses you on the subject of the proposed charter called "An act to reorganize the local government of the city of New York," which was passed by the assembly on the 21st of March and is now before your honor. The association fully expresses the opinion of a large body of citizens and taxpayers of this city in stating that a change in the form of our local government is absolutely necessary.

Nothing is more indicative of a general order and well doing as the absence of responsibility. A local power, to which complaints of official misconduct are made, which cannot be traced to any individual officer, is a source of great annoyance and dissatisfaction. The public officer who is held in duty must feel that he is to be held to account for his actions. The same power to set their rights and discharge their public duties as each individual possesses in his private business must be secured to the public officer. This is the principle of the new charter. It is provided that the council of common pleas shall have the power to impeach and remove any officer of the city who is guilty of misconduct. This is a power which has been wanting in our present government, and which is absolutely necessary for the proper administration of the city.

The association as far back as 1859 prepared a plan by which the various departments and the street commissioners were to be placed under the control of one officer, to be called the Board of Public Works, in order to effect the following reforms:

First—To avoid the conflict of jurisdiction which had at that time existed as to the public streets and the various departments.

Second—To place a stop to the various ingenious schemes for the purpose of obtaining a salary for the various departments and the street commissioners.

Third—To place a stop to the various schemes for the purpose of obtaining a salary for the various departments and the street commissioners.
